

# EBAFOSA

Ecosystem Based Adaptation for Food Security Assembly

DECEMBER 2016 - JUNE 2017

## EBAFOSA TOGO

EBAFOSA Togo has mobilized partnerships to build on ongoing reforestation work by Ministry of Environment towards reclaiming regarded lands. Over 10,000 trees have been planted in the canton of soundina, in Aného and Agou in fulfillment of Togo NDC priorities. EBAFOSA Togo catalyzing partnerships between soybean cooperatives and ongoing initiatives by the Ministry of Commerce & Private Sector and the Ministry of Agriculture and Hydraulics towards climate proof & maximizing productivity of soybean farmers. This by linking farmers to efficient supply of inputs to lower costs & to storage to cut losses; to packaging service providers, to marketing support and business training to enhance incomes, to advisory support on using EBA to enhance climate resilience of their farms. These actions are also increasing coverage of site based EBA. The above actions have resulted in a number of beneficiaries in 3 townships;

EBAFOSA Togo has mobilized partnerships to build on ongoing reforestation work by Ministry of Environment towards reclaiming regarded lands.

Over **10,000** trees have been planted in the canton of soundina, in Aného and Agou in fulfillment of Togo NDC priorities.

EBAFOSA Togo catalyzing partnerships between soybean cooperatives and ongoing initiatives by the Ministry of Commerce & Private Sector and the Ministry of Agriculture and Hydraulics towards climate proof & maximizing productivity of soybean farmers. This by linking farmers to efficient supply of inputs to lower costs & to storage to cut losses; to packaging service providers, to marketing support and business training to enhance incomes, to advisory support on using EBA to enhance climate resilience of their farms.

The township of Glitto, in the prefecture of Anié, where 110 producers (in 13 cooperatives), 32 of which are women in 2 cooperatives projected to enhance annual yields & incomes by 25% on a minimum of 350 ha of land to be under EBA
